

Your Respiratory Health

The Two Lasses are health and safety conscious and, to that end, we feel it is important to remind our students that they should be wearing an approved respirator (NOT a paper dust mask) whenever they are preparing a batch of kiln wash, scraping old kiln wash off the kiln shelf, cleaning kiln wash off the back of their glass and sawing or grinding their glass! Silicosis is a disease of the lungs caused by inhaling silica dust (glass). There is NO cure! ALWAYS use your respirator!
